

Museum Music *and* Lecture Series

Shakuhachi

with Dr. Nora Suggs

The shakuhachi (bamboo flute) is associated with the practice of Zen Buddhism and has been played in Japan for over 1,200 years.

Come for a fun time!

SENATOR ROSEMARY BROWN

Pennsylvania's 40th District

E-Newsletter

Lackawanna, Monroe & Wayne Counties

2024 Year in Review

By Senator Rosemary Brown

When I was sworn in as your Senator in 2023, I made one very important promise: to work hard!

In my first year, we delivered more than \$27 million in state grants, I prime-sponsored over 25 legislative proposals, and served thousands of constituents through direct services and outreach.

In 2024, we built even more on this record. Here is what we accomplished:

Six of my prime-sponsored bills were enacted into law with broad bipartisan support.

I secured over \$38 million in state grants for the 40th District.

My office filed over 300 property tax rebates for constituents.

We helped more than 90 Veterans obtain benefits through the American Legion.

I authored 35 legislative proposals on issues that matter most to our communities.

I served on the Governor's Commission on Women, the Gino Merli Veterans Home Advisory Council, and the Local Government Commission.

As a member of the Appropriations Committee, I reviewed the state budget line-by-line to advocate for responsible and effective spending.

In the district, I hosted events that reached thousands of residents, providing education, and connecting residents with resources.

I also make it a priority to regularly attend community events—from business openings to Eagle Scout ceremonies and 100th birthdays—ensuring I stay connected and accessible to you.

In 2025, I will use these accomplishments to build on delivering even more for the 40th Senatorial District. As always, thank you for your trust in me to work hard for you. I will continue to focus on common sense policy and results while creating an environment that fosters patriotism, deeper education, good government, kindness, and respect.

It is going to be a great 2025!
