

Roseto has a New Ice Skating Rink, Kind Of

By Michael Ortoski
 ROSETO - "Made possible with a donation from Dr. Albert Falcone, Roseto has a multi purpose facility installed at their park" said Roseto councilman Ken Tilmann.

"When we got the donation we wer'nt sure what we were going to spend it on but we wanted it to go towards something for the community besides infrastructure."

So the borough decided ice skating would be part of the project. It looks like a skating rink but has no ice. The floor is made from super strong rubber/plastic mats that interlock to each other. No special base was needed, they installed right over the basketball court.

It's meant for 'hockey skates' not figure skates that do not glide over the mats.

It's a year round investment. You could play roller hockey, roller skating (with rubber wheels only), soccer and maybe even backhoe ball!
