

# American Heart Month

By Robert F. Mateff Sr. / Chief Executive Officer  
LEHIGH VALLEY - As we observe American Heart Month, it is crucial to recognize the importance of heart health and the life-saving skills of CPR. Heart disease remains one of the leading causes of death worldwide, and raising awareness about prevention and emergency response can make a significant difference.

Learning CPR is a vital skill that can save lives. In the event of a cardiac arrest, immediate CPR can double or even triple a person's chance of survival. By equipping ourselves with this knowledge, we empower our community to act swiftly and effectively in emergencies. Encourage everyone to take the time this month to learn CPR and educate others about heart health. Together, we can create a safer and healthier community.
