

Keep Bears Wild

By Pennsylvania Game Commission

Spring is waking up and so are black bears! Adult bears and cubs will be emerging from their dens, causing a major increase in bear activity as they search of food.

Be sure to keep your distance and get familiar with the other BearWise basics to safely coexist with these opportunistic omnivores.

For insight into current research projects that will help shape bear management, tune in to the latest episode of Call of the Outdoors with Pennsylvania's new black bear biologist.

Watch on YouTube, listen on the Call of The Outdoors website, or find it on your favorite podcast listening platform.

Prescribed Burn Season In Pennsylvania

By Pennsylvania Game Commission

Prescribed burn season in Pennsylvania is approaching, with most of these organized habitat efforts occurring in April and May.

Highly trained crews apply fire at the right place, at the right time, and at the right intensity to improve wildlife habitat and reduce the severity of unplanned wildfires.

Before heading afield this spring, check the Game Commission's interactive map of planned prescribed fires or sign up to receive notifications of scheduled burns in your area.
