When it comes to housing, little things shouldn't make a difference.

If you have children and a landlord refuses to rent to you, requires a higher security deposit, limits the use of facilities, or says you can only live in certain areas of a housing complex... that could be discrimination. And housing discrimination is against the law.

FAIR HOUSING IS THE LAW!

EQUAL HOUSING OPPORTUNITY

Pennsylvania Pharmacy
Continued from page 1

the nonresident pharmacy has a business relationship with a Pennsylvania pharmacy,

the nonresident pharmacy is licensed in good standing in their home state, and the nonresident pharmacy and Pennsylvania pharmacy with which it has a business relationship have access to common patient files.

Governor Wolf also granted the suspension of certain licensure requirements to allow expedited temporary licensure to pharmacy practitioners and pharmacies in other states so they can provide goods and services to Pennsylvanians for the duration of the coronavirus emergency.

Process during disaster declaration: If an applicant seeking a temporary license has demonstrated they are licensed by and in good standing with their home state, the Department of State's Bureau of Professional and Occupational Affairs (BPOA) may suspend the *requirements for letters of good standing, criminal history record checks, National Practitioner Data Bank reports, and any other requirement deemed "administrative" in nature. BPOA also may suspend any continuing-education requirements for applicants seeking a temporary license.

The governor also suspended the regulation that requires a pharmacy to immediately turn in its permit if it closes or ceases operations. Instead, during the COVID-19 emergency, a pharmacy that temporarily closes for more than 24 hours must notify the State Board of Pharmacy and provide a plan for continuity of patient care.

For licensed pharmacists who also have an authorization to administer injectables, the Department is temporarily suspending the requirement that the pharmacist hold an active CPR certificate, so long as a pharmacist's CPR certificate was valid on March 17, 2020. Under these circumstances, the CPR certificate will be extended and accepted as valid through December 31, 2020.

Earlier this week, BPOA announced that in-state and out-of-state health care practitioners can treat patients via telemedicine during the coronavirus emergency.

Additionally, BPOA has suspended certain regulations regarding nurse licensing in Pennsylvania for the duration of the emergency.

The Department of State is working with the governor's office, the Department of Health and the Department of Human Services to identify regulations and requirements that can be suspended to give medical providers and facilities the flexibility they need to respond to COVID-19. The Department of State website will be updated regularly as additional information on suspended regulations becomes available.
