SLATE BELT RISING

RESIDENTIAL AND COMMERCIAL FAÇADE IMPROVEMENT PROGRAM

The Residential and Commercial Façade Improvement Programs are designed to help improve the exterior appearance and condition of residential and commercial properties within the four boroughs. The program's goals are to maintain historical and architectural integrity, improve neighborhood appearance, and help property owners make exterior repairs to their homes or businesses while increasing property values for all borough residents.

ABOUT SLATE BELT RISING

Slate Belt Rising is a neighborhood revitalization initiative designed to integrate and capitalize on the substantial assets of the individual Slate Belt boroughs of Wind Gap, Pen Argyl, Bangor, and Portland. While Slate Belt Rising specifically targets these four boroughs, some initiatives promote development and coordination of services throughout the entire region.

More information is available on our website under the Services tab, including program guidelines and applications Visit slatebeltrising.org.

PROGRAM OF COMMUNITY ACTION

Community Action Lehigh Valley is an anti-poverty non-profit offering programs and services in Advocacy, Business Start-Up and Development, Food Access and Nutrition, Housing, Neighborhood Revitalization, and Youth.

Contact Brian Fenstermaker at bfenstermaker@caclv.org or 484-523-0900 with any questions.

SQUASH SPOTTED LANTERNFLY EGGS

Help Limit Spread of Spotted Lanternfly

By State Rep. Joe Emrick

BETHLEHEM - With the state's spotted lanternfly quarantine now expanded to 52 counties, the Pennsylvania Department of Agriculture is encouraging everyone to destroy lanternfly eggs in the coming weeks to help protect valuable food and ornamental crops.

Adult insects die off over the winter after laying tiny rows of eggs, covering them with a putty-colored protective coating. The egg masses, which can be on any outdoor surface, from trees and rocks to equipment and lawn furniture, each contain 30-50 eggs approximately the size of a pinhead and have survived winters in sub-zero temperatures. Scraping and smashing them is easy and requires no special tools.

To learn how to recognize and report spotted lanternflies, control them on your property and keep from taking them to new homes when you travel, visit agriculture.pa.gov/spottedlanternfly.

PADDLE INTO SUMMER WITH SOME FAMILY FUN!

2024 LEHIGH RIVER SOJOURN

Sat., June 8-Tues., June 11
