Bill to Improve Safety in Child Care Facilities Approved by Senate

By Senator Scavello

PEN ARGYL - The Senate approved a bill to improve safety in state-regulated daycare facilities and sent the bill to the House of Representatives for consideration.

The legislation designates the locations where smoke detectors must be installed and requires that they are interconnected so that if one is triggered, they all go off.

The measure was introduced in response to a tragic fire that claimed the lives of five young children in Erie on August 11, 2019. Only one smoke detector was found in the building and it was located in the attic.
