

## What is that GREEN building??

By Adrienne Fors

SLATE BELT - We've received a few inquiries and spotted a few comments on social media about this new green building. We are excited about the buzz and wanted to be sure our community and friends knew the facts.

The new Grand Central Recycling Facility is now operational, accepting recyclables from the area. Inside this building, team members pre-sort the material before it travels its journey through the state-of-the-art AI equipment where it is separated and then baled. Once baled, it is shipped to become new items!

Yes! Recycling is real! We are excited and eager to show our community the new facility in the coming months via tours and videos. Stay tuned and as always, please remember these rules to recycling right.

## Attention Artists!

By Rep. Joe Emrick

America250PA – the organization planning the state's participation in the United States' 250th anniversary next year – is seeking submissions from local artists for its "Bells Across PA" art series.

Selected artists will execute their designs on a fiberglass bell sculpture. The goal is to place at least one bell in each of the state's 67 counties, but the hope is for many more.

Bells Across PA is open to all Pennsylvania artists and groups from the acclaimed to the amateur. Painters, sculptors, craftsmen, multi-media artists and other wildly creative people are all encouraged to apply. Each commissioned bell will receive one honorarium, regardless of group size.
