

## Roseto

Continued from page 1

Greenhouse and Garden Center gave 2 beautiful butterfly bushes, John Teague from East Bangor donated a truckload of wood chips, Lowes in Whitehall gave 11 perennial plants, Walmart in Easton donated 4 plants and Troop 8340 donated birdhouses, bee houses and butterfly houses.

It is the goal of the Girl Scout troops and Mayor Tillman to continue to maintain and grow this pollinator garden by adding more pollinator plants, a couple of benches for seating, and a gated fence across the front to protect the plants from the visiting deer.

Mayor Tillman would like to showcase what has been done so far during the Roseto Borough's National Night Out on August 6 from 5-8 p.m. Please come visit and check it out. If you would like to donate to this community project, please reach out to Mayor Tillman at [itillman610@gmail.com](mailto:itillman610@gmail.com) or Jamie Goffredo, troop leader, at [jlthomgoff@gmail.com](mailto:jlthomgoff@gmail.com).

## Waste Management Update

By Landfill Manager Joe Statile

PLAINFIELD TWSP -

As summer is wrapping up, the team at Grand Central is working diligently to prepare for the liner placement in cell 19 of the landfill. Preparation is underway and the team is expecting to see the first two layers of a five layer liner system to be installed by the end of the month. Landfill liner plays an integral role in protecting the environment. While most would think a landfill is just one gigantic hole in the ground, it is much more complex.

Careful planning, design and multi-step approvals by state agencies must first be done before any liner can be placed and a new cell begins. You can learn more about the importance of landfill liner by watching this short video filmed during our cell 18 construction phase.

Z330R ZTrak™ Mower

0% APR fixed rate for 12 months!
