Safety Tips

Safety Tips
 Keep a Safe Distance: Collection trucks stop and back up frequently.
 Stay Clear: Keep your children clear of carts and our vehicles/trucks. Let the collection team in your neighborhood load trash or recycling into the truck.

Prevent Trash Fires in Your Community
Did you know? The most common causes of trash fires are hot coals, ashes, and flammable items, such as batteries and household chemicals. You can help keep your family, community and collection workers safe and prevent trash fires by properly disposing of coals and household hazardous waste.

Hidden Household Hazards
 Many everyday household items, such as batteries, disinfectants and cleaners, can cause a fire in your trash cart or in your neighborhood when they come in contact with other materials or get compacted inside a collection truck.

Cool Your Coals!
 Just as those coals helped to get your campfire or backyard BBQ going, they can quickly start a fire in your trash cart, the back of a collection truck or at a waste facility.
 Properly dispose of your hot coals and ashes:
 • Cool your coals - hot coals and fresh ashes stay hot for several days. Let them cool for more than 48 hours before disposal.
 • Place your hot coals and ashes in a metal container and cover them with water to fully extinguish them.
 • Do not place coals and ashes in a plastic, paper, wood or galvanized container.
 • Do not place other combustibles in the container with the coals or ashes.

To protect your family and community, keep these items out of your cart:

- Batteries of any kind, including lithium ion
- Compressed gas cylinders
- Combustible liquids
- Garden and pool chemicals
- Household disinfectants and chemicals
- Motor oil and oil rags
- Paint and paint-related products
- Unknown substances
- Vehicle fluids
- Flammable fluids, like hand sanitizer
- Aerosol containers

Congratulations to Jack Dunlap!

I was thrilled to celebrate another outstanding achievement from Troop 89! Congratulations to Jack Dunlap on earning the rank of Eagle Scout with his incredible outdoor classroom project for Clearview Elementary. Jack's dedication to creating a positive impact in our community is truly inspiring, and I'm excited to see him continue his journey in environmental resource management and sustainable agriculture.

A special shoutout to his parents, Matt and Megan, who have been vital to Troop 89 for many years. Their commitment to shaping our youth into responsible and caring individuals through scouting is deeply appreciated. Congratulations, Jack, and thank you to the Dunlap family for your contributions to our community!
