Slow Down for School Buses

By State Rep. Joe Emrick

Students are or soon will be returning to class, and that means we will be seeing school buses back on our roads. Motorists, parents and children are encouraged to watch the video above to refresh their memories about how to share the road safely.

Pennsylvania law requires motorists to stop at least 10 feet away from school buses when their red lights are flashing and their stop arm is activated. This applies to motorists when they are behind or traveling alongside a school bus, as well as when meeting the bus or approaching an intersection where a bus has stopped.

Vehicles should remain stopped until the red lights have stopped flashing and the stop arm is withdrawn. Do not proceed until all the children have reached a place of safety.

If physical barriers such as grassy medians, guide rails or concrete median barriers separate oncoming traffic from the bus, motorists in the opposing lanes may proceed without stopping.

Penalties for failure to obey school bus safety laws can result in a \$250 fine, five points on a driving record and a 60-day license suspension. Violators will also be assessed a \$35 surcharge to be deposited into the School Bus Safety Grant Program Account. State law also permits school entities to install and operate a side stop signal arm enforcement system. These civil violations include a \$300 fine but would not assess points or impact insurance ratings.

Parents are reminded to ensure their children are at the bus stop early to avoid rushing. Students should stay where the bus driver can see them while boarding or exiting the bus.

Call Before You Dig

By State Rep. Joe Emrick

Aug. 11 was National 811 Day – a day dedicated to reminding residents, contractors and utility workers of the importance of calling 8-1-1 before digging to help ensure the safety of excavation projects across the state.

Every time an underground utility line is hit, there is a risk to the contractors or homeowners who are doing the digging; to utility workers and emergency responders who are mobilized to deal with the damage; and to bystanders who live, work or travel near the locations of the incidents.

State law requires contractors and residents to contact PA One Call at least three business days prior to excavation – triggering alerts to all utilities within an intended digging area and prompting utilities to mark where their facilities are located. Pennsylvanians can dial 8-1-1 to connect with the One Call system, while out-of-state residents or businesses can call 1-800-242-1776.
