## **Only Two Weeks Left to Experience Dinos Alive at Da Vinci Science Center at PPL Pavilion!**

By Kamara Krizek

ALLENTOWN, Pa, Aug. 23, 2024 – Time is running out to witness one of the most thrilling exhibits ever brought to life at the Da Vinci Science Center at PPL Pavilion—Dinos Alive! With only two weeks remaining, the clock is ticking for visitors to embark on a prehistoric journey and explore the world of dinosaurs up close.

Dinos Alive transports guests back in time with lifelike animatronic dinosaurs that move, roar, and captivate audiences of all ages. The exhibit offers an interactive and educational experience that allows families, children, and dinosaur enthusiasts to learn about the fascinating creatures that roamed the earth millions of years ago.

"Visitors have been amazed by the sheer size and realism of our dinosaurs," says Lin Erickson, Executive Director and CEO at Da Vinci Science Center. "This is a rare opportunity to engage with these incredible, scientifically accurate exhibits before they move on to the next destination. We encourage everyone to take advantage of these final two weeks."

### **Highlights of the exhibit include:**

**Animatronic Dinosaurs:** Life-sized, animatronic dinosaurs, including a T. rex, Triceratops, and Stegosaurus, all brought to life with stunning detail and movement.

**Dino Rides:** Feel the thrill of riding on the back of a majestic dinosaur in this fun, family-friendly experience.

**Virtual Reality Adventure:** Step into the past and explore the age of dinosaurs through a cutting-edge VR experience that immerses visitors in a prehistoric landscape like never before.

Don't miss your chance to immerse yourself in the wonder of the Jurassic period! Dinos Alive closes on September 8th, so plan your visit now to ensure you don't miss out on this unforgettable experience.
