911 Text Service Available in All Counties

By Rep. Joe Emrick

The Pennsylvania Emergency Management Agency is reminding citizens you can now text 911 in any county across the Commonwealth.

Texting 911 is as simple as texting a friend. Type 911 in the "to" field and explain what is happening in your text. Include your location

Texting 911 is ideal if the person trying to report the emergency is deaf, hard of hearing or has a speech disability; is having an emergency and cannot talk on the phone; is in a situation in which it is not safe to call 911.

PEMA recommends calling if at all possible, as it provides background sounds and context clues to aid operators and emergency responders. But if you can't call, texting is the next best thing.
