

HEALTH ON WHEELS™

OPERATION: PATHWAY TO SUCCESS

High school graduate to fully employed in the healthcare industry ... without all the college debt

Cetronia Ambulance Corps is reaching out to local community high schools to inform future graduates about full/part-time employment opportunities within our nonprofit organization. An excellent pathway has been created to gradually advance associates to become successful in the healthcare industry.

For more information, contact Director of Human Resources Shawn McGovern at 610-530-5510 or mcgovern@cetronia.org.

Steel Weekend returns to NMIH this Saturday and Sunday!

By Jerry Jones

BETHLEHEM - The National Museum of Industrial History's annual Steel Weekend returns this Saturday and Sunday (September 25th & 26th) at the Steelstacks campus. Events include hands-on activities for all ages, photography workshops, pop-up exhibits, steelworkers reunions, musical performances, and more. Steel Weekend is an annual celebration of all things steel that coincides with the American Institute of Steel Construction's (AISC) SteelDay on September 24th, an annual event dedicated to the structural steel industry.

Featuring: Pop-up Exhibits • Industrial Art Workshops • Family Storytime • Tours • Steelworker Reunions • Hot Metalworking Demos • Interactive S.T.E.A.M. Activities • Lectures

TOUR THE HOOVER MASON TRESTLE

The Hoover Mason Trestle (HMT) once supported busy standard and broad gauge railroad tracks for carrying the coke, limestone and iron ore needed to make the iron from the ore yard to the blast furnaces. Now a public walkway designed to be part museum, part community recreation resource, and part attraction, the trestle stands 46 feet tall and features almost 2,000 feet of walkway.

FACES OF STEEL

Steel Weekend will honor the men and women who worked at Bethlehem Steel with a photo gallery shared via the outdoor screens at PBS39. The community is invited to submit photos of family members and friends who worked at Bethlehem Steel digitally at nmih.org/facesofsteel.

FOUNDRY PARK TOURS

Tour the museum's new Foundry Park in this guided tour with an expert docent. Learn about how the artifacts in the park transformed raw materials into steel, see a 1-million-lb. bending press that predates Bethlehem Steel, and more in this all-ages, family-friendly experience. Weather permitting. Inquire at museum's front desk.
