## Hunters, Anglers Beware

By Rep. Joe Emrick

BANGOR - The Pennsylvania Fish and Boat Commission (PFBC) and Pennsylvania Game Commission are warning anglers and hunters to avoid online scams when purchasing their licenses. The warning follows several recent reports of customers paying for licenses through third-party websites not affiliated with either agency, then never receiving a license.

Both agencies sell licenses and permits through The Outdoor Shop, a secure online portal. Using a third-party website may result in hunters and anglers losing money and potentially putting their personal information at risk.

When you purchase your fishing license from the PFBC through The Outdoor Shop, a printable electronic version of the license is issued immediately. Hunting licenses purchased through The Outdoor Shop are confirmed at the time of sale through an official email from the Game Commission and licenses are mailed to the buyer within two weeks of purchase.

Anyone who encounters a website offering the sale of a Pennsylvania fishing or hunting license that does not link to The Outdoor Shop to complete the transaction should call the PFBC Fishing License Help Line at 877-707-4085 or the Game Commission's license division at 717-787-2084. Victims of a fishing or hunting license scam should notify the Pennsylvania attorney general by completing a Scams Complaint Form.

## Senate Votes to Provide Security Grants to Faith-Based Institutions, Nonprofits

By Senator Scavello

PEN ARGYL - On Wednesday, the Senate approved legislation to provide security grants to faith-based institutions and nonprofit organizations.

House Bill 859 was amended by the Senate to make grants available to faith-based institutions and any nonprofit that services individuals, groups, or institutions included within the FBI's bias motivation category for hate crime incidents.

Similar to the recently enacted Safe Schools Grant Program, faith-based institutions and nonprofits may utilize the grant dollars for a variety of security planning, equipment, and technology needs, including metal detectors, surveillance cameras, emergency communications equipment, electronic locksets, threat assessments, and building upgrades.

The General Assembly has enacted several initiatives to increase security in schools, to help pay for equipment, training, threat assessments and more. Unfortunately, it's clear that places of worship are not free from threats. This legislation will provide the same resources to faith-based institutions and nonprofits that might be targeted.

The amended House Bill 859 returns to the House of Representatives for consideration.
