

Mauser

Continued from page 1

Mount Bethel Township. As a retired school teacher, John always engaged his students in environmental education activities & is himself a member of many conservation organizations, like the Martins-Jacoby Watershed Association (which he helped found), Trout Unlimited & the Watershed Coalition of the Lehigh Valley. Friends of Minsi Lake is incredibly fortunate to have had John as our chairperson for our first seven years. And while we wish John the best, we sure will miss him!
