

Watch Out for Increased Deer Activity on Roads

By Senator Rosemary Brown

The number of deer-related crashes in Pennsylvania has been on the rise since 2020, with last year's total of 6,426 setting a five-year high, according to the Pennsylvania Department of Transportation (PennDOT).

Autumn means increased deer activity on roads. Deer become more active at dawn and dusk, and if you see one, there are usually more.

PennDOT advises motorists involved in a deer-related crash to assess the situation to determine whether they need to contact local authorities. Pennsylvanians can report a dead deer for removal from state-maintained roads by calling 1-800-FIX-ROAD or submitting feedback through the PennDOT Customer Care Center.

A Special Thank You to All Veterans

By Senator Rosemary Brown

We set aside Veterans Day to acknowledge and celebrate our fellow citizens who answered the call to serve in the military, securing and defending freedom we enjoy year-round. We owe a debt of gratitude to veterans locally and across this great nation.

To all veterans, past and present, thank you for your service, your strength, and your steadfast commitment to protecting our great nation. We are forever grateful.

One way we show our appreciation is through the Veterans Trust Fund, which supports organizations that assist Pennsylvania veterans and their families in need of housing, financial help, food, training, recovery and more. Find out how you can donate to this fund here.

Bill Requiring Parental Notification of School Weapons Incidents Set to Become Law

By Senator Rosemary Brown

Legislation requiring school districts to notify parents and school employees of any incidents involving possession of weapons on school property is set to become law.

Under current law, school districts are not required to inform parents or guardians about incidents when a weapon is brought onto school grounds or to related activities. The changes in Senate Bill 246 apply to public, nonpublic and private schools.

The bill, which first passed the Senate in May, received strong bipartisan support from the General Assembly and now awaits the governor's signature.

Opening of New Resource Management Center at Delaware State Forest

By Senator Rosemary Brown

Earlier this week, Department of Conservation and Natural Resources celebrated the opening of the new Resource Management Center in the Delaware State Forest. Spanning over 80,000 acres across four counties in Northeastern Pennsylvania, the Delaware State Forest preserves our natural beauty, supports outdoor recreation, and protects vital habitats.

Thank you to Secretary Dunn, the DCNR team, and Delaware Forest District Manager Tim Dugan for your leadership. This new facility reflects a continued investment in sustainable forest management.
