

# Women in Science & Engineering (WISE) Forum at Da Vinci Science Center

By Da Vinci Science Center

Da Vinci Science Center's annual Women in Science & Engineering (WISE) Forum brings together high school and college girls who are interested in science, technology, engineering, the arts, and math (STEAM) with accomplished women professionals in STEAM fields, ranging from academia and healthcare to design engineering and space exploration.

The first half of the evening consists of a Distinguished Leader Panel Discussion, featuring four distinguished women in STEAM who share their perspectives on working in STEAM fields. Hear

about the opportunities and challenges they have faced while pursuing careers dominated by men.

Following the panel discussion is a Networking & Mentoring Reception where attendees are invited to connect. This is an opportunity for high school students to talk one-on-one with and receive advice from women professionals and college students.
