## Celebrating an Outstanding Eagle Scout

By State Rep. Ann Flood

Congratulations to Eric Bromley Hays on earning the rank of Eagle Scout, the highest honor in Scouting. For his Eagle Scout project, Eric cleaned up the flower beds, built a border around them, and filled them with stone outside the Pocono Township Fire Company.

I was proud to welcome him to my district office in Pen Argyl and present him with a House citation recognizing this outstanding accomplishment. Eric's dedication, leadership, and commitment to serving his community set a remarkable example for others.

Congratulations to Eric! In December, he will head to Utah for two years to do mission work with his church.

## Protecting Custody Rights of Deployed Military Parents

By State Rep. Ann Flood

Parents who serve their country should never lose custody or visitation simply because they answered the call to duty. That's why I was honored to vote in favor of a new law protecting a parent's rights during military deployment.

Act 40 of 2025 fixes Pennsylvania child-custody law by preventing any permanent modification of custody or visitation orders while a parent is deployed. The law stops litigants from using the fact of deployment as a reason to alter existing custody arrangements. It also allows parents to delegate visitation rights during deployment and encourages continued communication between parents and children through modern means, such as video calls, when in-person contact is not possible.

The law will take effect in late November.

## New Law to Help Veterans, Students

By State Rep. Ann Flood

Pennsylvania schools need teachers, and Pennsylvania veterans will soon be able to put their education and experience to work in the classroom under a new state law.

Act 41 of 2025 makes it easier for veterans to obtain a teaching certificate related to their direct experience in various career and technical education (CTE) fields. Specifically, the law requires the Department of Education to issue a CTE Intern or CTE Instructional I Certificate to a veteran who has served in the United States Armed Forces for a minimum of 8,000 hours in the occupational area to be taught.

This will open new pathways for veterans to become educators and share their valuable hands-on skills and expertise with our students. It's a win for all involved! The law will take effect in late December.
