RESIDENTIAL AND COMMERCIAL FAÇADE IMPROVEMENT PROGRAM

The Residential and Commercial Façade Improvement Programs are designed to help improve the exterior appearance and condition of residential and commercial properties within the four boroughs. The program's goals are to maintain historical and architectural integrity, improve neighborhood appearance, and help property owners make exterior repairs to their homes or businesses while increasing property values for all borough residents.

ABOUT SLATE BELT RISING

Slate Belt Rising is a neighborhood revitalization initiative designed to integrate and capitalize on the substantial assets of the individual Slate Belt boroughs of Wind Gap, Pen Argyl, Bangor, and Portland. While Slate Belt Rising specifically targets these four boroughs, some initiatives promote development and coordination of services throughout the entire region.

More information is available on our website under the Services tab, including program guidelines and applications Visit slatebeltrising.org.

PROGRAM OF COMMUNITY ACTION

Community Action Lehigh Valley is an anti-poverty non-profit offering programs and services in Advocacy, Business Start-Up and Development, Food Access and Nutrition, Housing, Neighborhood Revitalization, and Youth.

78 Acres Added to Cherry Valley National Wildlife Refuge

By DCNR

MONROE COUNTY - The Nature Conservancy in Pennsylvania and Delaware has announced the purchase and transfer of 78 acres to the U.S. Fish and Wildlife Service for addition to the Cherry Valley National Wildlife Refuge.

The transfer was facilitated with funding from the Department of Conservation and Natural Resources and the Open Space Institute.

The refuge was established in 2008 to preserve critical habitat for migratory birds and threatened and endangered species along the Kittatinny Ridge.

"This addition to the Cherry Valley National Wildlife Refuge is a big win for conservation in the Kittatinny Ridge Conservation Landscape and for the Commonwealth of Pennsylvania, as it highlights the importance of protection of wildlife habitat, water quality, and climate-resilient landscapes," Department of Conservation and Natural Resources Secretary Cindy Adams Dunn said. "Conservation of this magnitude is not possible without great partners, and we thank the Open Space Institute and The Nature Conservancy for supporting this important addition."

The project was supported by the Delaware River Watershed Protection Fund, which seeks to protect water quality in the Delaware River Basin.
