## Living With Pain?

Get back to doing what you love and living PAIN-FREE. That's our goal at Robbins Rehabilitation West as a family-owned, outpatient physical therapy and wellness clinic. We want to help you find the fastest and most effective way to eliminate your pain without the use of medications, injections or surgery.

How do we do this? With specialized, one-on-one treatment programs that allow both the patient and the therapist to develop a plan that WORKS, and will last long after your time with us. We give you the tools in order to succeed at home, and we serve as a resource for any of your health-related needs.

With our new Wellness Program, there are a variety of services that contribute to faster healing and sustained physical health - medical massage, laser light therapy, nutrition coaching and at-home workout plans are just some of the ways we hope to ensure you're getting the most out of your life and not limited by your pain.

Don't just take our word for it, though. There are thousands of people in Bangor, Allentown, Bethlehem, and Upper Macungie just like you that made the choice to do something about the pain affecting their lives and saw great success. Don't wait until it's too late. Call us today at 610-686-9690 and ask how you can get a FREE 30 minute health screen with one of our doctors of physical therapy.

Call **610-686-9690** to  
schedule your free  
appointment today.
