Nearly \$1.5 Million in Grants for 137th District Projects

By State Rep. Joe Emrick

A total of \$1.45 million in grants has been awarded for two 137th District projects through the PA Small Water and Sewer Program and the Multimodal Transportation Fund Program.

Lower Nazareth Township received a \$1.25 million Multimodal Transportation Fund grant to improve a portion of Township Line Road located in Lower Nazareth Township and East Allen Township.

The Bethlehem Township Municipal Authority will use its \$200,000 PA Small Water and Sewer Program grant to rehabilitate 12 pipes within their storm sewer system in Bethlehem Township.

Blood Donation Saves Lives

By State Rep. Joe Emrick

Did you know that every two seconds in America, someone urgently needs blood? January is National Blood Donor Month, an opportunity to both honor voluntary blood donors and encourage new donors to help save lives. National Blood Donor Month was first designated by proclamation of President Richard Nixon on Dec. 31, 1969.

The start of the new year is one of the most challenging times to collect blood products as the threat of winter weather builds and can often lead to widespread blood drive cancellations. In addition to winter weather, an active cold and flu season may prevent people from keeping donation appointments as they rest and recover from illness.

Only 3% of Americans currently donate blood. Learn more about blood donation and where to donate here https://links.pahousenews.com/q/WucllbiR4O0XrEHry8XNwSiLHnvOe6qSORZcOJYnZ0aW1lc0BY24uY29tw4gM4zgt8Wde43sLrcmujx2Z_jWJ6A.

Be Prepared for Winter Weather

By State Rep. Joe Emrick

With some winter weather in the forecast this weekend for many areas of the state, it's a good time to make sure your vehicle is ready for winter travel.

Make sure your vehicle is in good working order, such as checking fluid levels; that the heater and defroster are working properly, as well as your radio in order to receive weather and traffic reports; tires are properly inflated and have sufficient tread depth; and wipers and lights are working.

Try to avoid traveling in severe winter weather, but if you have to go, bring a winter emergency travel kit, including a blanket and warm clothes, jumper cables, small shovel, first aid kit, medications for you and your passengers, and water and nonperishable food. A full list of suggested items is available here.

Also, keep these safe winter driving tips in mind: Slow down and increase your following distance; avoid sudden stops and starts; beware of black ice – roads that look wet but are actually frozen; use extra caution on bridges and ramps, as they tend to freeze first; do not use cruise control while driving on snow-covered roads; remove snow and ice from windows and mirrors; and do not pass or get between trucks plowing in a plow line.

Be sure to remove snow and ice from the hood and roof of your vehicle. Under state law, if snow or ice from your vehicle strikes a vehicle or person and causes death or injury, you can be ticketed. Click here for more information about winter driving safety.
