## Federal Government Launches Website to Provide Home COVID Tests

By Senator Scavello

**PEN ARGYL** - The federal government has launched a website to order at-home rapid COVID-19 testing kits.

Each household is eligible to order four tests. According to the website, orders will usually ship in 7-12 days and there is no cost.

These are rapid antigen at-home tests, also referred to as self-tests or over the counter (OTC) tests. They produce results within 30 minutes and no lab drop-off is required.

To place an order, provide your name and residential address. You don't have to provide ID, credit card or health insurance information. You can find answers to frequently asked questions at this link <https://www.covidtests.gov/faq/>.

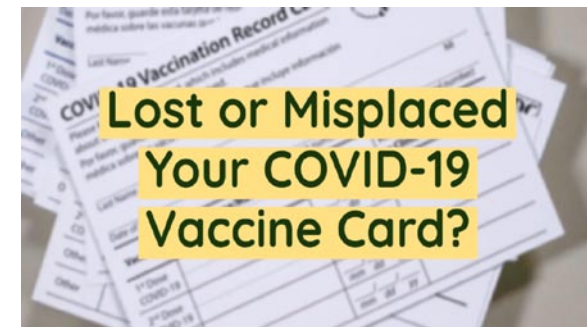

## Lost or Misplaced Your COVID-19 Vaccine Card?

By Senator Scavello

**PEN ARGYL** - Individuals who have lost or misplaced your COVID-19 vaccine card can request to receive a record of your immunization for COVID from the PA Department of Health. Although you will not receive a replacement card, this record will serve as official proof of vaccination for anyone who needs it. To request your immunization records, please complete the Authorization for Release of Immunizations Records Form (Links below). You will also need to upload a copy of your photo ID. This form can be completed online and also be printed and then mailed. Please be aware mailed requests will require additional processing time. Of course, if you need assistance with this, please contact my office for assistance!

Authorization for Release of Immunizations Records – Online Form go to: <https://expressforms.pa.gov/apps/pa/DOH/SIIS-release-of-records?fbclid=IwAR3B-XU6udxUgeoOOU7OD7y4EPmA7vS2hDsUF0nbdm5MYgbu1S3wtRrN3MU>

## Transition to 5G Service Will Cause 3G Cell Phones to Stop Operating in 2022

By Senator Scavello

**PEN ARGYL** - Residents with older cell phones are being urged by the Pennsylvania Emergency Management Agency and Pennsylvania State Police to prepare for the phase-out of 3G cellular networks and service, which could come as early as next month.

If your mobile phone is more than a few years old, you may need to upgrade your device before your provider shuts down its 3G network and you lose service – including the ability to call 911. You should contact your cellular service provider to determine if your devices are compliant to ensure you don't lose connectivity.

The nation's three major wireless carriers (AT&T, Verizon and T-Mobile) have announced plans to shut down their 3G networks to accommodate more advanced services, including 5G, as early as February. That will cause many older phones to be unable to make or receive calls and text messages or use data services. It could also affect other devices that rely on 3G connectivity, such as medical alert devices, tablets, smart watches, home security systems, and in-vehicle safety, security and roadside assistance systems.

Low-income individuals concerned their 911-only phones will no longer be supported can apply for service through the Federal Communications Commission's Lifeline program.
