Continuing the Call to Protect Young Athletes: Greg Moyer's Law

By Senator Rosemary Brown

I continue to advocate for the passage of my bill, Senate Bill 375, which passed the Senate with strong bipartisan support on June 25, 2025. Since then, we have been waiting for the bill to be brought up for a vote in the House of Representatives.

Known as Greg Moyer's Law, this bill honors the life of a young athlete in our community who tragically died of sudden cardiac arrest during a high school basketball game. The legislation would require automated external defibrillators (AEDs) to be available at all PIAA-sanctioned athletic events and practices. It would also ensure that schools develop and rehearse emergency response protocols to be prepared in the event of a cardiac incident.

Sudden cardiac arrest is the leading cause of death in young athletes. This bill is about being prepared and saving lives. Access to an AED within minutes can increase survival rates by up to 70 percent. Senate Bill 375 will make life-saving tools and emergency planning a standard part of school sports.

I encourage you to contact your state representative and ask that this proposal be brought up for a vote in the state House.
