Bangor High School Play 'Les Misérables'

By Michael Ortoski

UMBT - Les Misérables was selected for the 2022 Bangor play held at Bangor Area High School Performing Arts Theater this past weekend.

The play was a musical by Alain Boublil and Claude-Michel Schönberg

Based on the novel by Victor Hugo Music by Claude-Michel Schönberg and Lyrics by Herbert Kretzmer.

It takes place in nineteenth century France, Jean Valjean (played by Charles 'CJ' Fassl) is released from years of unjust imprisonment, but finds nothing in store for him but mistrust and mistreatment.

He breaks his parole in hopes of starting a new life, initiating a lifelong struggle for redemption as he is relentlessly pursued by police inspector Javert, who refuses to believe Valjean can change his ways. Finally, during the Paris student uprising of 1832, Javert must confront his ideals after Valjean spares his life and saves that of the student revolutionary who has captured the heart of Valjean's adopted daughter (played by Clara Oxford).

Bears Are On The Move

By PAFB

HARRISBURG - Black bears are starting to emerge from winter dens and are looking for more than a snickers bar to tame their hunger. Black bears are omnivores, primarily eating a diet of hard and soft mast, carrion, and some meat. However, during this time of year when natural food resources are low, bears are more likely to help themselves to whatever food is easily accessible, including your bird feeders, trash cans and pet food.

Help reduce negative bear-human interactions and help keep bears wild this spring by: Bringing potential bear snacks, like pet food or bird feeders, in at night or entirely remove if bears continually return.

When possible, keep trash cans inside until the morning of collection day.

Clean and remove grease from grills regularly.

Once a bear finds easily accessible food, it will more often than not, come back for another easy meal later - why spend energy

BEARS ARE ON THE MOVE

searching for food when people are handing it out for free? Unfortunately, with each returning trip, bears slowly lose their fear of people and make bolder attempts to access food, which can lead to property damage or worse, dangerous human-bear interactions.
