PUTTING CONTEST SPONSOR: FIDELITY BANK

Whitetail Golf Club, Bath

AT 9AM 8th JUNE, 2026 MONDAY GOLFER \$95

REGISTRATION : slatebeltchamber.org

SENATOR ROSEMARY BROWN
Pennsylvania's 40th District
Serving Lackawanna, Monroe, and Wayne Counties

Sens. Baker, Brown Pass Legislation to Strengthen Penalties for Attempted Murder of Law Enforcement Officers thumbnail of Sen. Brown at press conference for SB1284.

By Senator Rosemary Brown

In the Senate, we also passed Senate Bill 1284, Detective Kyle Gilmartin's Law, legislation Sen. Lisa Baker and I sponsored following the 2024 shooting of Scranton Police Detective Kyle Gilmartin. By the grace of God, Detective Gilmartin survived being shot in the head, but the case revealed a dangerous gap in Pennsylvania law regarding sentencing for attempted murder of a law enforcement officer.

This legislation closes that loophole by establishing a 20-year mandatory minimum sentence when someone attempts to murder a law enforcement officer and causes serious bodily injury. Any attempt to murder or harm our law enforcement, compromises safety to you, your families, and our community.

The bill now moves to the House for consideration.

Mother's Day and Mamma May

By Senator Rosemary Brown

24% of PA women miss a mammogram yearly, 38 PA women diagnosed with breast cancer daily, 90% of women survive at least 5 years with early diagnosis

Mother's Day is a great time to remind Mom and all the women in your life about the importance of annual mammograms.

While these low-dose x-rays are critical to a lifesaving early diagnosis of breast cancer, one in four Pennsylvania women fail to get a mammogram each year.

Annual mammograms are recommended for women beginning at age 40 or as early as age 25 if a woman is considered at increased risk for breast cancer. Learn more from the Pennsylvania Breast Cancer Coalition.

Mamma MAY

24% of PA women miss their mammogram each year

38 women will be diagnosed with breast cancer today in PA

90% of women survive at least 5 years after an early-stage diagnosis
