

Music - It Brings Us All Together

By Sherman Theatre

STROUDSBURG - Last week Senator John Cornyn (R-TX) and Senator Amy Klobuchar (D-MN) introduced the bipartisan Save Our Stages Act. We need you to contact your elected representatives through SaveOurStages.com asking them to support this bill.

The Save Our Stages Act provides Small Business Administration grants for independent venues, promoters, and festivals affected by COVID-19 stay-at-home orders. These grants offer at least six months of financial support to keep us afloat, pay employees, and preserve a critical economic sector and our ecosystem for communities across America.

To get the Save Our Stages Act and RESTART Act across the finish line, we absolutely need your help. Every one of your letters and calls to your local Senators and Representatives is what will keep us alive and get these acts passed. Without your help many will surely perish and close their doors forever.

"Our members told us months ago that if the shutdown lasted six months or longer and there wasn't federal relief to hold them over, 90% of them would fold permanently," said Dayna Frank, president of NIVA and CEO First Avenue Productions. "With no revenue and immense overhead, four months in, it's already happening. The warning light is flashing red and our only hope is for legislation like Save Our Stages Act or RESTART Act to be passed before Congress goes on August recess. Otherwise, most businesses in this industry will collapse."

Through SaveOurStages.com, more than 1 million emails have been sent letting all 538 members of Congress know that constituents want to keep independent venues, promoters, and festivals alive. Go to www.SaveOurStages.com.

St. Luke's Top Ranked by U.S. News & World Report

BETHLEHEM - St. Luke's University Hospital in Bethlehem has been ranked #1 in the Lehigh Valley and #6 in the state by U.S. News & World Report.

St. Luke's was the only hospital in the Lehigh Valley to be rated "high performing" in all 10 Procedures & Conditions categories examined by U.S. News. Only 37 of over 4,500 hospitals nationally were ranked "high performing" in all 10.

"This is a well-deserved recognition of St. Luke's relentless, Network-wide focus on quality," said Donna Sabol, St. Luke's Chief Quality Officer.

U.S. News' Procedures & Conditions ratings, now in their 6th year, are designed to assist patients and their doctors in making informed decisions about where to receive care for common conditions and elective procedures. These ratings extend the U.S. News mission of providing consumers with patient decision support beyond the Best Hospitals rankings, which are geared toward complex specialty care.

The 10 procedures and conditions for which U.S. News rated St. Luke's "high performing" are:

- Abdominal aortic aneurysm repair
- Aortic valve surgery
- Chronic obstructive pulmonary disease (COPD)
- Colon cancer surgery
- Heart bypass surgery
- Heart failure
- Hip replacement
- Knee replacement
- Lung cancer surgery
- Transcatheter aortic valve replacement.

Additionally, U.S. News rated St. Luke's "high performing" in the adult specialties of geriatrics; nephrology; neurology and neurosurgery; orthopedics; pulmonology and lung surgery.

"For more than 30 years, U.S. News & World Report has been helping patients, along with the help of their physicians, identify the Best Hospitals in an array of specialties, procedures and conditions," said Ben Harder, managing editor and chief of health analysis at U.S. News. "The hospitals that rise to the top of our rankings and ratings have deep medical expertise, and each has built a track record of delivering good outcomes for patients."

The 2020 U.S. News honors add to the extensive list of major awards and recognitions St. Luke's has received over the past year – IBM Watson Health 100 Top Hospital, Newsweek 'World's Best' Hospital and Leap Frog Top Hospital, as well as the region's only five-star ratings from the Centers for Medicare and Medicaid Services.
