

# Conservation Tip

By DCNR

HARRISBURG -Water conservation plays a key role in providing safe, healthy drinking water to the public; and is essential to ensuring access to clean, abundant water resources to future generations.

Here are some tips to help fix any leaks in your home's water consumption:

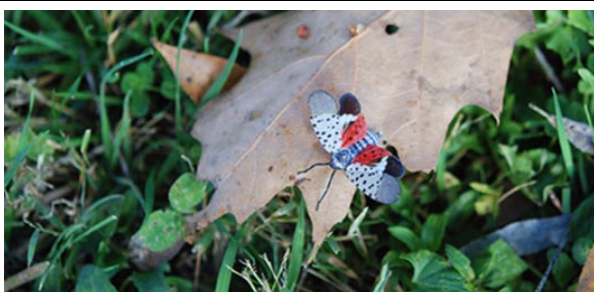

Run the dishwasher and washing machine only with full loads

Store drinking water in the refrigerator instead of running the tap to get colder water

Check for household leaks -- for example, a leaking toilet can waste up to 200 gallons of water daily

Shorten the time you let the water run to warm up before showering and use a bucket to catch the initial water to use for your plants

When cooking, peel and clean vegetables in a large bowl of water instead of under running water

## Birders Can Help Fight the Spotted Lanternfly

By DCNR

HARRISBURG - A Penn State graduate study wants to know if you notice a bird feeding on a spotted lanternfly.

Sightings of birds preying on spotted lanternflies should be reported to the Birds Biting Bad Bugs Facebook page.

Reports should be as detailed as possible, including:

- Common name of the bird
- Date and location of the observation
- Any behaviors you noticed by the bird
- Pictures of the encounter

In particular, the study is interested in whether the bird attempted to eat the insect, dropped it, or finished eating it. Did the bird spit out the wings, but eat the rest?

Reports also may be emailed to [birdsbitingbadbugs@gmail.com](mailto:birdsbitingbadbugs@gmail.com).
